X2 Samui

STYLISH AND RELAXED WITH A HINT OF ANTI-ESTABLISHMENT ATTITUDE, THAILAND'S BEAUTIFUL X2 RESORT SAMUI, IS THE PERFECT ANTIDOTE TO THE PRETENSION AND PRESSURES OF EVERYDAY LIFE.

X2 Resorts (pronounced "Cross To"), Thailand's first chain of Design Hotels, are designed and built with the primary goal that they must "satisfy the spirit". This is partly achieved via architectural design, but more importantly through the natural beauty of the location and the meshing of the structures with the canvas provided by nature. Resorts by X2 appeal to people who appreciate style in a genuine, pure sense. Almost an anti-brand; X2 does what large hotel chains cannot do, and a lot of that comes back to being human and unpretentious.

X2 Samui, on the tropical island of Koh Samui in the Gulf of Thailand, occupies five acres of land with 27 villas. Most have private swimming pools, and outside areas. The resort is beautifully located on 100 metres of pristine beachfront where 50-year-old trees help to provide the X2 atmosphere. The signature 4K restaurant and bar (pronounced "Fork") which provides a 'mix & match' range of eastern and western dishes and the best of fusion, ensure that guests never get bored with their culinary choices. Local seasonal products and organic ingredients dominate the menu.

To pamper your mind and soul with traditional body massages, the resort has a unique spa and an impressive beachfront

outdoor massage pavilion. The extravagant use of prime land provides the unbelievable sense of space and freedom typical of X2 Spas.

Rooms: Garden Villa, Pool Villa, Suite Pool Villa and Owner's Villa. X2 Kui Buri also has Deluxe Pool Villas.

Restaurants: 4K Restaurant & Bar

Spa & Fitness: X2 Spa and outdoor massage pavilion.
